1. INTRODUCTION

- 1.1 The Directors wish to refer Shareholders to the notice of EGM of the Company dated 28 March 2019 convening the EGM to be held on 26 April 2019 to seek approval of the Shareholders in relation to (a) the proposed renewal of the Share Buyback Mandate, (b) the proposed grant of Awards to a Controlling Shareholder and his associate under the Rex PSP, and (c) the proposed diversification of the Group's business to include the business of providing sustainable solutions for energy production and materials used in various industries.
- 1.2 The purpose of this Circular is to provide Shareholders with information relating to the aforementioned Proposals, details of which are set out in Paragraphs 2, 3 and 4 of this Circular, and to seek Shareholders' approval in relation thereto at the EGM.
- 1.3 The Sponsor and the SGX-ST take no responsibility for the contents of this Circular, including the accuracy, completeness or correctness of any of the information, statements or opinions made, or reports contained in this Circular.

2. THE PROPOSED RENEWAL OF THE SHARE BUYBACK MANDATE

2.1 The Share Buyback Mandate

It is a requirement under the Catalist Rules that a company which wishes to purchase or acquire its own shares should obtain approval of its shareholders at a general meeting. The Share Buyback Mandate was adopted in an extraordinary general meeting of the Company on 16 October 2015, and subsequently renewed in the Company's extraordinary general meetings convened on 29 April 2016, 28 April 2017 and 27 April 2018. The mandate will, unless renewed again, expire on the date of the forthcoming AGM.

In this regard, Shareholders' approval is being sought at the EGM for the renewal of the Share Buyback Mandate by ordinary resolution, pursuant to which authority will be given to the Directors to exercise all powers of the Company to purchase or otherwise acquire its issued Shares on the terms of the Share Buyback Mandate.

If approved by the Shareholders at the EGM, the authority conferred by the Share Buyback Mandate will take effect from the date of the EGM and continue in force until the date of the next AGM of the Company or such date as the next AGM is required by law or by the Constitution to be held, whereupon it will lapse, unless renewed at such meeting, or unless prior thereto, the share buybacks are carried out to the full extent mandated or the Share Buyback Mandate is revoked or varied by the Company in a general meeting.

Sections 76B, 76C, 76D, 76DA, and 76E of the Companies Act allow a listed company to purchase its own shares. The Constitution provides that the Company may purchase its own Shares in accordance with the Companies Act. The information required in compliance with Catalist Rule 868(1) and the Companies Act is provided below.

2.2 Rationale for the Proposed Renewal of the Share Buyback Mandate

The Company strives to increase Shareholders' value in the Company by improving, *inter alia*, the return on equity of the Group. A share buyback at the appropriate price level is one of the ways in which the return on equity of the Group may be enhanced.

Share buybacks provide the Company with a mechanism to facilitate the return of surplus cash over and above its ordinary capital requirements, in an expedient and cost-efficient manner. It will also provide the Directors with greater flexibility over the Company's share capital structure with a view to lead to enhancing the EPS and/or NAV per Share.

The Directors believe that a share buyback by the Company will also help mitigate short-term market volatility, offset the effects of short-term speculation and bolster shareholder confidence. Further, share buybacks will allow the Company to effectively manage and minimise the dilution impact, if any, that may be associated with any share-based incentive scheme of the Company. The Directors may also purchase existing Shares to be held in treasury, and such treasury shares may consequently be transferred for the purposes of employee share schemes implemented by the Company.

If and when circumstances permit, the Directors will decide whether to effect the share purchases via Market Purchases or Off-Market Purchases, after taking into account factors such as the amount of cash available, the prevailing market conditions and the most cost-effective and efficient approach. The Directors do not propose to carry out purchases pursuant to the Share Buyback Mandate to such an extent that would, or in circumstances that might, result in a material adverse effect on the float, liquidity, orderly trading of the Shares and/or financial position of the Group.

2.3 Authority and Limits of the Share Buyback Mandate

The authority and limitations placed on purchases or acquisitions of Shares by the Company under the Share Buyback Mandate are summarised below.

2.3.1 Maximum Number of Shares

Only Shares which are issued and fully paid-up may be purchased or acquired by the Company. The total number of Shares that may be purchased or acquired by the Company is limited to that number of Shares representing not more than 10% of the issued ordinary shares of the Company (excluding treasury shares) as at the date of the EGM at which the Share Buyback Mandate is approved, unless the Company has, at any time during the Relevant Period, effected a reduction of the share capital of the Company in accordance with the applicable provisions of the Companies Act, in which event the issued ordinary share capital of the Company shall be taken to be the amount of the issued ordinary share capital of the Company as altered (excluding any treasury shares that may be held by the Company from time to time).

For illustrative purposes only, on the basis of 1,291,220,451 Shares in issue (excluding treasury shares) as at the Latest Practicable Date, and assuming no further Shares are issued on or prior to the EGM, not more than 129,122,045 Shares (representing 10% of the issued ordinary shares of the Company (excluding treasury shares) as at the date of the EGM) may be purchased or acquired by the Company pursuant to the Share Buyback Mandate during the period referred to in Paragraph 2.3.2 of this Circular.

While the Share Buyback Mandate would authorise a purchase or acquisition of Shares up to the 10% limit, Shareholders should note that purchases or acquisitions of Shares pursuant to the Share Buyback Mandate may not be carried out up to the full 10% limit as authorised, or at all. In particular, no purchase or acquisition of the Shares would be made in circumstances which would have or may have a material adverse effect on the float, liquidity, orderly trading of the Shares and/or financial position of the Group.

2.3.2 Duration of Authority

Purchases or acquisitions of Shares may be made, at any time and from time to time, on and from the date of the EGM at which the proposed renewal of the Share Buyback Mandate is approved, up to the earliest of:

- (a) the date on which the next AGM is held or is required by law to be held; or
- (b) the date on which the purchases or acquisitions of Shares are carried out to the full extent of the Share Buyback Mandate; or
- (c) the date on which the authority conferred by the Share Buyback Mandate is revoked or varied by the Shareholders in a general meeting.

The authority conferred on the Directors by the Share Buyback Mandate to purchase Shares may be renewed by Shareholders in the next AGM or at an extraordinary general meeting to be convened immediately after the conclusion or adjournment of the next AGM. When seeking the approval of the Shareholders for the renewal of the Share Buyback Mandate, the Company is required to disclose details pertaining to purchases or acquisitions of Shares pursuant to the Share Buyback Mandate made during the previous 12 months, including the total number of Shares purchased, the purchase price per Share or the highest and lowest prices paid for such purchases of Shares, where relevant, and the total consideration paid for such purchases.

2.4 Manner of Purchase or Acquisition of Shares

Purchases or acquisitions of Shares may be made by way of:

- (a) on-market purchases ("**Market Purchases**"), transacted on the SGX-ST through the SGX-ST's trading system or, as the case may be, any other stock exchange on which the Shares may for the time being be listed and quoted, through one or more duly licensed dealers appointed by the Company for the purpose; and/or
- (b) off-market purchases ("**Off-Market Purchases**") in accordance with an equal access scheme(s), which scheme(s) shall satisfy all the conditions prescribed by the Companies Act and the Catalist Rules.

The Directors may impose such terms and conditions which are not inconsistent with the Share Buyback Mandate, the Catalist Rules and the Companies Act, as they consider fit in the interests of the Company in connection with or in relation to any equal access scheme or schemes. An Off-Market Purchase must also satisfy all of the following conditions as set out under the Companies Act:

- (i) offers for the purchase or acquisition of Shares shall be made to every person who holds Shares to purchase or acquire the same percentage of their Shares;

- (ii) all of the above-mentioned persons shall be given a reasonable opportunity to accept the offers made to them; and
- (iii) the terms of all the offers shall be the same, except that there shall be disregarded (a) differences in consideration attributable to the fact that offers may relate to Shares with different accrued dividend entitlements, (b) differences in consideration attributable to the fact that offers relate to Shares with different amounts remaining unpaid (if applicable) and (c) differences in the offers introduced solely to ensure that each person is left with a whole number of Shares.

The Catalist Rules further provide that, in making an Off-Market Purchase, the Company must issue an offer document to all Shareholders which must contain at least the following information:

- (1) the terms and conditions of the offer;
- (2) the period and procedures for acceptances;
- (3) the reasons for the proposed share buyback;
- (4) the consequences, if any, of share purchases by the Company that will arise under the Take-over Code or other applicable take-over rules;
- (5) whether the share buybacks, if made, could affect the listing of the Company's equity securities on the SGX-ST;
- (6) details of any share buybacks made by the Company in the previous 12 months (whether Market Purchases or Off-Market Purchases in accordance with an equal access scheme), giving the total number of the Shares purchased, the purchase price per Share or the highest or lowest prices paid for the purchases, where relevant, and the total consideration paid for the purchases; and
- (7) whether the Shares purchased by the Company will be cancelled or kept as treasury shares.

2.5 Maximum Purchase Price

The purchase price to be paid for the Shares will be determined by the Directors. However, the purchase price to be paid for the Shares pursuant to the share buyback (excluding brokerage, stamp duties, commission, applicable goods and services tax and other related expenses) must not exceed:

- (a) in the case of a Market Purchase, 105% of the Average Closing Market Price (as defined below); and
- (b) in the case of an Off-Market Purchase pursuant to an equal access scheme, 120% of the Average Closing Market Price (as defined below),

(the "**Maximum Price**") in either case, excluding related expenses of the purchase.

For the purposes of determining the Maximum Price:

"Average Closing Market Price" means the average of the closing market prices of a Share over the last five Market Days on which transactions in the Shares were recorded, before the day on which the purchase or acquisition of the Shares was made, or as the case may be, the day of the making of the offer pursuant to the Off-Market Purchase, and deemed to be adjusted for any corporate action that occurs after the relevant five-day period;

“day of the making of the offer” means the day on which the Company announces its intention to make an offer for the purchase or acquisition of Shares from Shareholders, stating the purchase price (which shall not be more than the Maximum Price calculated on the foregoing basis) for each Share and the relevant terms of the equal access scheme for effecting the Off-Market Purchase.

2.6 Status of Purchased or Acquired Shares

Any Share which is purchased by the Company is deemed cancelled immediately on purchase (and all rights and privileges attached to that Share will expire on such cancellation), unless such Share is held by the Company as a treasury share. All Shares (excluding Shares held by Company as treasury shares) purchased by the Company will be automatically delisted by the SGX-ST, and certificates in respect thereof will be cancelled and destroyed by the Company as soon as reasonably practicable following settlement of any such purchase. Accordingly, the total number of issued Shares will be diminished by the number of Shares purchased by the Company and which are not held as treasury shares. At the time of each purchase of Shares by the Company, the Directors will decide whether the Shares purchased will be cancelled or kept as treasury shares, or partly cancelled and partly kept as treasury shares, depending on the needs of the Company at that time.

2.7 Treasury Shares

Under the Companies Act, Shares purchased by the Company may be held or dealt with as treasury shares. Some of the provisions on treasury shares under the Companies Act are summarised below:

(a) *Maximum Holdings*

The number of Shares held as treasury shares cannot at any time exceed 10% of the total number of issued Shares. Any Shares in excess of this limit shall be disposed or cancelled in accordance with the applicable provisions of the Companies Act.

(b) *Voting and Other Rights*

The Company cannot exercise any right in respect of treasury shares. In particular, the Company cannot exercise any right to attend or vote at meetings and for the purposes of the Companies Act, the Company shall be treated as having no right to vote and the treasury shares shall be treated as having no voting rights.

In addition, no dividend may be paid, and no other distribution of the Company’s assets may be made, to the Company in respect of treasury shares. However, the allotment of Shares as fully paid bonus shares in respect of treasury shares is allowed. Also, a subdivision or consolidation of any treasury share into treasury shares of a greater or smaller number, is allowed so long as the total value of the treasury shares after the subdivision or consolidation is the same as the total value of the treasury shares before the subdivision or consolidation, as the case may be.

(c) *Disposal and Cancellation*

Where Shares are held as treasury shares, the Company may at any time:

- (i) sell the treasury shares for cash;
- (ii) transfer the treasury shares for the purposes of or pursuant to any share scheme, whether for employees, directors or other persons;
- (iii) transfer the treasury shares as consideration for the acquisition of shares in or assets of another company or assets of a person;
- (iv) cancel the treasury shares; or

- (v) sell, transfer or otherwise use the treasury shares for such other purposes as may be prescribed by the Minister for Finance of Singapore.

Under the Catalist Rule 704(31), an immediate announcement must be made of any sale, transfer, cancellation and/or use of treasury shares (in each case, the “usage”). Such announcement must include details such as the date of the usage, the purpose of the usage, the number of treasury shares comprised in the usage, the number of shares before and after the usage, the percentage of the number of treasury shares against the total number of issued shares (of the same class as the treasury shares) which are listed on the SGX-ST before and after the usage, and the value of the treasury shares if they are used for a sale or transfer or cancelled.

2.8 Reporting and Catalist Rules Requirements

Within 30 days of the passing of a Shareholders' ordinary resolution to approve the purchases or acquisitions of Shares by the Company, the Company shall lodge a copy of such resolution with the Registrar.

Within 30 days of the cancellation or disposal of treasury shares in accordance with the provisions of the Companies Act, the Directors shall lodge with the Registrar the notice of cancellation or disposal of treasury shares in the prescribed form as required by the Registrar.

The Company shall notify the Registrar within 30 days of a purchase of Shares on the SGX-ST or otherwise. Such notification shall include the date of the purchases, the total number of Shares purchased by the Company, the number of Shares cancelled, the number of Shares held as treasury shares, the Company's issued share capital before the purchase of Shares and after the purchase of Shares, the amount of consideration paid by the Company for the purchases, whether the Shares were purchased out of profits or the capital of the Company and such other particulars as may be required in the prescribed form.

Catalist Rule 871 specifies that a listed company shall announce all purchases or acquisitions of its shares via SGXNet not later than 9.00 a.m.,

- (a) in the case of a Market Purchase, on the Market Day following the day of purchase or acquisition of any of its shares; and
- (b) in the case of an Off-Market Purchase under an equal access scheme, on the second Market Day after the close of acceptances of the offer.

The notification of such purchases or acquisition of Shares via SGXNet shall be in such form and shall include such details that the SGX-ST may prescribe. The Company shall make arrangements with its stockbrokers to ensure that they provide the Company in a timely fashion the necessary information which will enable the Company to make the notifications via SGXNet.

While the Catalist Rules do not expressly prohibit any purchase of shares by a listed company during any particular time or times, because the listed company would be regarded as an “insider” in relation to any proposed purchase or acquisition of its issued shares, the Company will not undertake any purchase or acquisition of Shares pursuant to the Share Buyback Mandate at any time after a price sensitive development has occurred or has been the subject of a decision until the price sensitive information has been publicly announced. In particular, the Company will not purchase or acquire any Shares pursuant to the Share Buyback Mandate during the period commencing two weeks before the announcement of the Company's financial statements for each of the first three quarters of its financial year and one month before the announcement of the Company's full year financial statements.

The Catalist Rules requires a listed company to ensure that at least 10% of the total number of any class of its listed securities must be held by public shareholders. The “public”, as defined under the Catalist Rules, are persons other than the Directors, chief executive officer, Substantial Shareholders or Controlling Shareholders of the Company and its subsidiaries, as well as the associates of such persons.

As at the Latest Practicable Date, 726,181,657 Shares representing 56.24% of the issued Shares (excluding treasury shares) are held by public Shareholders. In the event that the Company purchases the maximum of 10% of its issued ordinary share capital from such public Shareholders, the resultant percentage of the issued Shares held by the public Shareholders would be reduced to approximately 51.38% of the issued Shares (excluding treasury shares). Accordingly, the Company is of the view that there is a sufficient number of the Shares in issue held by public Shareholders which would permit the Company to undertake purchases or acquisitions of its Shares through Market Purchases up to the full 10% limit pursuant to the Share Buyback Mandate without affecting the listing status of the Shares on the SGX-ST, and that the number of Shares remaining in the hands of the public will not fall to such a level as to cause market illiquidity or to affect orderly trading.

2.9 Source of Funds

The Companies Act permits the Company to purchase its Shares out of capital, as well as from its distributable profits so long as the Company is solvent (as defined in Section 76F(4) of the Companies Act).

The Company intends to use internal sources of funds, or a combination of internal resources and external borrowings, to finance purchases of Shares pursuant to the Share Buyback Mandate.

2.10 Financial Effects

The financial effects on the Company and the Group arising from purchases or acquisitions of Shares which may be made pursuant to the Share Buyback Mandate will depend on, *inter alia*, the aggregate number of Shares purchased or acquired, the amount borrowed by the Group (if any) to fund the purchases or acquisitions, whether the Shares are purchased or acquired out of capital or profits, the price paid for such Shares and whether the Shares purchased or acquired are held in treasury or cancelled. The financial effects on the Group and the Company, based on the audited financial statements of the Group and the Company for FY2018, are based on the assumptions set out below.

(a) Purchase or acquisition out of capital or profits

The Companies Act permits the Company to purchase its Shares out of capital, as well as from its distributable profits so long as the Company is solvent. Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of profits, such consideration (including related brokerage, goods and services tax, stamp duties and clearance fees) will correspondingly reduce the amount available for the distribution of cash dividends by the Company. Where the consideration paid by the Company for the purchase or acquisition of Shares is made out of capital, the amount available for the distribution of cash dividends by the Company will not be reduced.

(b) Number of Shares purchased or acquired

As at the Latest Practicable Date, the issued capital of the Company comprised 1,291,220,451 Shares (excluding treasury shares). Based on the issued and paid-up ordinary share capital of the Company as at the Latest Practicable Date and assuming no further Shares are issued on or prior to the EGM, the purchase by the Company of up to the maximum limit of 10% of its issued Shares will result in the purchase or acquisition of 129,122,045 Shares.

(c) Maximum price paid for Shares purchased or acquired

In the case of Market Purchases by the Company and assuming that the Company purchases or acquires 129,122,045 Shares at the Maximum Price of S\$0.08106 for one Share (being the price equivalent to five per cent. above the Average Closing Market Price of the Shares for the last five Market Days on which transactions in the Shares were recorded immediately preceding the Latest Practicable Date), the maximum amount of funds required for the purchase or acquisition of 129,122,045 Shares is approximately S\$10,467,000 (equivalent to approximately US\$7,724,000).

In the case of an Off-Market Purchase by the Company and assuming that the Company purchases or acquires 129,122,045 Shares at the Maximum Price of S\$0.09264 for one Share (being the price equivalent to 20% above the Average Closing Market Price of the Shares as recorded for the last five Market Days on which transactions in the Shares were recorded immediately preceding the Latest Practicable Date), the maximum amount of funds required for the purchase or acquisition of 129,122,045 Shares is approximately S\$11,962,000 (equivalent to approximately US\$8,827,000).

For illustrative purposes only, and based on the assumptions set out in the sub-paragraphs (a) to (c) above, and assuming that (i) the purchase of Shares is financed by internal sources of funds; (ii) the Share Buyback Mandate had been effective on 1 January 2018; (iii) transaction costs incurred for the purchase or acquisition of Shares pursuant to the Share Buyback Mandate are assumed to be insignificant and have been ignored for the purpose of computing the financial effects; and (iv) the Company had purchased the 129,122,045 Shares (representing 10% of the total number of issued Shares of the Company as at the Latest Practicable Date) on 1 January 2018, the financial effects of the purchase of 129,122,045 Shares by the Company pursuant to the Share Buyback Mandate:

- (1) by way of purchases made entirely out of capital and held as treasury shares; and
- (2) by way of purchases made entirely out of capital and cancelled,

Although the proposed renewal of the Share Buyback Mandate would authorise the Company to purchase or acquire up to 10% of the total number of issued Shares, the Company may not necessarily purchase or acquire or be able to purchase or acquire the entire 10% of the total number of issued Shares. In addition, the Company may cancel all or part of the Shares purchased, or hold all or part of the Shares repurchased in treasury.

2.11 Take-over Code Implications

Pursuant to Rule 14 of the Take-over Code, a person will be required to make a general offer for a public company if:

- (a) he acquires 30% or more of the voting rights of the company; or
- (b) he, together with persons acting in concert with him, holds between 30% and 50% of the voting rights of the company and any of them increases their voting rights in the company by more than one per cent. in any six-month period.

If the proportionate shareholding in the voting capital of the company of a shareholder and persons acting in concert with him increases as a result of the company buying back its shares, such increase will be treated as an acquisition for the purposes of Rule 14 of the Take-over Code. If such increase results in the shareholder and persons acting in concert with him obtaining or consolidating effective control of the company, they may be obliged to make a take-over offer under Rule 14 of the Take-over Code.

Under the Take-over Code, persons acting in concert comprise individuals or companies who, pursuant to an agreement or understanding (whether formal or informal), co-operate, through the acquisition by any of them of shares in a company to obtain or consolidate effective control of that company.

The following individuals will, *inter alia*, be presumed to be acting in concert unless the contrary is established:

- (a) a company, its parent company, subsidiaries, its fellow subsidiaries, any associated companies of the above companies, any company whose associated companies include any of the above companies and any person who has provided financial assistance (other than a bank in the ordinary course of business) to any of the above for the purchase of voting rights. For this purpose, a company is an associated company of another company if the second company owns or controls at least 20% but not more than 50% of the voting rights of the first-mentioned company;
- (b) a company with any of its directors, together with their close relatives, related trusts and any companies controlled by any of the directors, their close relatives and related trusts;
- (c) a company with any of its pension funds and employee share schemes;
- (d) a person with any investment company, unit trust or other fund in respect of the investment account which such person manages on a discretionary basis, but only in respect of the investment account which such person manages;
- (e) a financial or other professional adviser, including a stockbroker, with its client in respect of the shareholdings of the adviser and the persons controlling, controlled by or under the same control as the adviser;
- (f) directors of a company (together with their close relatives, related trusts and companies controlled by any of such directors, their close relatives and related trusts) which is subject to an offer or where the directors have reason to believe a *bona fide* offer for their company may be imminent;
- (g) partners; and
- (h) an individual, his close relatives, his related trusts, and any person who is accustomed to act according to his instructions, companies controlled by any of the above persons, and any person who has provided financial assistance (other than a bank in its ordinary course of business) to any of the above for the purchase of voting rights.

The circumstances under which Shareholders of the Company, including Directors and persons acting in concert with them respectively, will incur an obligation to make a take-over offer under Rule 14 of the Take-over Code after a purchase or acquisition of Shares by the Company are set out in Appendix 2 of the Take-over Code.

2.11.1 Effect of Rule 14 and Appendix 2 “Share Buy-Back Guidance Note” of the Take-over Code

Generally, the effect of Rule 14 and Appendix 2 is that, unless exempted, Directors of the Company and persons acting in concert with them will incur an obligation to make a take-over offer for the Company under Rule 14 if, as a result of the Company purchasing or acquiring its Shares, the voting rights of such Directors and their concert parties would increase to 30% or more, or in the event that such Directors and their concert parties hold between 30% and 50% of the Company’s voting rights, if the voting rights of such Directors and their concert parties would increase by more than one per cent. in any period of six months. In calculating the percentages of voting rights of such Directors and their concert parties, treasury shares shall be excluded.

Under Appendix 2 of the Take-over Code, a Shareholder not acting in concert with the Directors will not be required to make a take-over offer under Rule 14 if, as a result of the Company purchasing or acquiring its own Shares, the voting rights of such Shareholder would increase to 30% or more, or, if such Shareholder holds between 30% and 50% of the Company’s voting rights, the voting rights of such Shareholder would increase by more than one per cent. in any period of six months. Such Shareholder need not abstain from voting in respect of the resolution authorising the Share Buyback Mandate.

Shareholders are advised to consult their professional advisers and/or the SIC at the earliest opportunity as to whether an obligation on them to make a mandatory take-over offer would arise by reason of any purchases or acquisitions of Shares by the Company.

2.11.2 Information on the Concert Party Group

As at the Latest Practicable Date, Limea Ltd. holds 452,020,422 Shares, representing approximately 35.01% of the issued Shares (excluding treasury shares). Dr Karl Lidgren, through a nominee company, owns 50% of Limea Ltd., and Mr Hans Lidgren owns the remaining 50% of Limea Ltd. Accordingly, Dr Karl Lidgren and Mr Hans Lidgren are deemed interested in the 452,020,422 Shares held by Limea Ltd. Dr Karl Lidgren is presently an Executive Director and Controlling Shareholder of the Company. Mr Måns Lidgren, the CEO, who is the son of Dr Karl Lidgren, holds 14,241,464 Shares, representing approximately 1.10% of the issued Shares (excluding treasury shares) of the Company as at the Latest Practicable Date, and was granted a contingent award of up to 30,943,600 ordinary shares (“**Award Shares**”) pursuant to the Rex PSP, of which none of the Award Shares have vested. Additionally, each of Dr Karl Lidgren, Mr Hans Lidgren, Mrs Lina Berntsen, Mr Martin Lidgren and Mr Magnus Lidgren have been granted contingent awards under the Rex PSP of up to 16,358,400 Award Shares, up to 10,164,800 Award Shares, up to 3,375,400 Award Shares, up to 3,375,400 Award Shares and up to 3,375,400 Award Shares respectively, of which none of the Award Shares have vested. As such, the above-mentioned persons would be presumed to be concert parties for the purposes of the Take-over Code (the “**Concert Party Group**”, each a “**Concert Party**”).

Pursuant to Appendix 2 read together with Rule 14 of the Take-over Code, if, as a result of any purchase or acquisition by the Company of the Shares, the proportionate interest in the voting rights held by the Concert Parties or the Concert Party Group increases, such increase will be treated as an acquisition for the purpose of Rule 14 of the Take-over Code. Consequently, the Concert Parties could obtain or consolidate effective control of the Company and become obliged to make an offer under Rule 14 of the Take-over Code.

For illustrative purposes only, the purchase or acquisition of 129,122,045 Shares by the Company (representing 10% of the issued Shares (excluding any treasury shares) as at the Latest Practicable Date) from the Independent Shareholders pursuant to the maximum limit permitted under the Share Buyback Mandate, would result in the interest in Shares of the Concert Party Group increasing from approximately 36.11% to approximately 40.12% of the issued Shares (excluding treasury shares).

2.11.3 Conditional Exemption from Having to Make a Take-over Offer

Under Appendix 2 of the Take-over Code, the Concert Party Group will be exempted from the requirement to make a general offer under Rule 14 of the Take-over Code, subject to the following conditions:

- (a) the circular to Shareholders on the resolution to authorise the Share Buyback Mandate to contain advice to the effect that by voting for such resolution, Shareholders are waiving their right to a general offer at the required price from the Concert Party Group which, as a result of the Company buying back its Shares, would, in aggregate, increase the Concert Party Group's voting rights by more than one per cent. in any period of six months, and the names of the members of the Concert Party Group, their voting rights at the time of the resolution and after the proposed share buyback;
- (b) the resolution to authorise a share buy-back to be approved by a majority of those Shareholders present and voting at the meeting on a poll who could not become obliged to make an offer as a result of the buy-back of Shares by the Company;
- (c) the Concert Party Group to abstain from voting for and/or recommending Shareholders to vote in favour of the resolution to authorise the Share Buyback Mandate;
- (d) within seven days after passing the resolution to authorise the Share Buyback Mandate, Dr Karl Lidgren to submit to the SIC a duly signed form as prescribed by the SIC;
- (e) the Concert Party Group not to have acquired and not to acquire any Shares between the date on which they know that the announcement of the renewal of the Share Buyback Mandate proposal is imminent and the earlier of (a) the date on which the authority of the Share Buyback Mandate expires, and (b) the date on which the Company announces it has bought back such number of Shares as authorised by the Share Buyback Mandate or it has decided to cease buying back its Shares, as the case may be, if such acquisitions, taken together with the buyback of Shares by the Company, would cause the voting rights in the Company of any Concert Party to increase to 30% or more; and
- (f) the Concert Party Group not to have acquired and not to acquire any Shares between the date on which they know that the announcement of the renewal of the Share Buyback Mandate proposal is imminent and the earlier of (a) the date on which the authority of the Share Buyback Mandate expires, and (b) the date on which the Company announces it has bought back such number of Shares as authorised by the Share Buyback Mandate or it has decided to cease buying back its Shares, as the case may be, if such acquisitions, taken together with the buyback of Shares by the Company, would cause their aggregate voting rights in the Company to increase by more than one per cent. in the preceding six months.

Form 2 (Submission by directors pursuant to Appendix 2 "Share Buy-Back Guidance Note" of the Take-over Code) is the prescribed form to be submitted to the SIC by a director acting in concert with a shareholder of a listed company who could become obliged to make a take-over offer under Rule 14 of the Take-over Code as a result of the buyback of Shares by the Company pursuant to the conditions for exemption (as set out above).

As at the Latest Practicable Date, Dr Karl Lidgren has informed the Company that he will submit a Form 2 to the SIC within seven days after the passing of the ordinary resolution relating to the proposed renewal of the Share Buyback Mandate.

CAUTIONARY NOTE TO INDEPENDENT SHAREHOLDERS

SHAREHOLDERS ARE ADVISED THAT BY VOTING IN FAVOUR OF THE ORDINARY RESOLUTION RELATING TO THE PROPOSED RENEWAL OF THE SHARE BUYBACK MANDATE, THEY WILL BE WAIVING THEIR RIGHT TO A GENERAL OFFER AT THE REQUIRED PRICE FROM ANY CONCERT PARTY AND/OR THE CONCERT PARTY GROUP WHO, AS A RESULT OF THE COMPANY BUYING BACK ITS SHARES, WOULD INCREASE THEIR VOTING RIGHTS BY MORE THAN ONE PER CENT. IN ANY PERIOD OF SIX MONTHS OR WHO, AS A RESULT OF THE COMPANY BUYING BACK ITS SHARES, WOULD INCREASE ITS VOTING RIGHTS TO 30% OR MORE IF APPLICABLE.

2.12 No Share Buybacks in the Previous 12 Months

The Company has not purchased or acquired any Shares during the 12-month period preceding the Latest Practicable Date.

2.13 Tax Implications

Shareholders who are in doubt as to their tax positions or any tax implications arising from the Share Buyback Mandate in their respective jurisdictions should consult their own professional advisers.

3. THE PROPOSED GRANT OF AWARDS TO A CONTROLLING SHAREHOLDER AND HIS ASSOCIATE UNDER THE REX PSP

3.1 Introduction

Approval of Shareholders is being sought in relation to the proposed grant of Awards to (A) Mr Måns Lidgren, CEO and an associate of a Controlling Shareholder, and (B) Dr Karl Lidgren, Executive Director and Controlling Shareholder of the Company.

3.2 Participation by Controlling Shareholders and their Associates

The Rex PSP was implemented to promote higher performance goals and recognising the achievements of Group Employees by providing them with an opportunity to participate in the equity of the Company, and seeks to motivate Group Employees towards better performance in the long-term coupled with loyalty to our Group.

The purpose for the participation by Group Employees who are Controlling Shareholders or associates of Controlling Shareholders in the Rex PSP is to provide an opportunity for eligible Group Employees who are Controlling Shareholders or associates of Controlling Shareholders who have contributed or continue to contribute significantly to the growth and performance of the Group to participate in the equity of the Company.

The rules of the Rex PSP do not differentiate between the Controlling Shareholders or associates of Controlling Shareholders from other Group Employees in determining the eligibility of such persons to be granted Awards. Controlling Shareholders or associates of Controlling Shareholders should not be excluded from participating in the Rex PSP solely for the reason that they are Controlling Shareholders or associates of Controlling Shareholders. To deny participation by the Controlling Shareholders or associates of Controlling Shareholders may undermine the objectives of the Rex PSP.

The Company acknowledges that the services and contributions of the Group Employees who are Controlling Shareholders or associates of Controlling Shareholders have been instrumental and will continue to be crucial to the development and success of the Group. The extension of the Rex PSP to the Controlling Shareholders or associates of Controlling Shareholders allows

the Company to have a fair and equitable system for rewarding these Group Employees who have made and continue to make important contributions to the long-term growth of the Group notwithstanding that they are Controlling Shareholders or associates of Controlling Shareholders, and seeks to align the long-term interest of the Group Employee with that of the Group's. Allowing Group Employees who are Controlling Shareholders or associates of Controlling Shareholders to be remunerated under the Rex PSP would also conserve the Company's cash and allow the Company increased flexibility to use their existing cash for the Group's operations.

As a safeguard against abuse, all members of the Board who are neither Controlling Shareholders nor their associates will be involved in deliberations in respect of the Awards to be granted to or held by Controlling Shareholders or associates of Controlling Shareholders and the terms and conditions, including the Vesting Periods, if any, attached to such Awards.

Specific approval of the independent Shareholders is required for the participation and grant of Awards to Controlling Shareholders or Associates of Controlling Shareholders, as well as the specific terms of such Awards and the number of New Shares which are the subject of the Awards. In seeking such independent Shareholders' approval, clear justification as to their participation, the number of New Shares and the terms of Awards to be granted to the Controlling Shareholders or Associates of Controlling Shareholders will need to be provided.

The Company is of the view that there are sufficient safeguards against abuse resulting from the participation by the Controlling Shareholders or Associates of Controlling Shareholders in the Rex PSP.

3.3 Rationale for the Proposed Grant of an Award under the Rex PSP to Mr Måns Lidgren

3.3.1 Mr Måns Lidgren is the CEO of the Company and the son of Dr Karl Lidgren, an Executive Director and a Controlling Shareholder of the Company. The participation of Mr Måns Lidgren in the Rex PSP was previously approved by Shareholders at an extraordinary general meeting of the Company convened on 30 April 2014. Mr Måns Lidgren is integral to the Group's core management team, providing leadership and strategic direction, and is responsible for making major business and finance decisions. He oversees the business strategies of the Company and steers corporate expansion plans. Under his management, the Group has progressed and his contributions are essential in ensuring the continual growth of the Group and successful ventures with its partners.

3.3.2 The Directors propose to grant the following Award to Mr Måns Lidgren in accordance with the rules of the Rex PSP and on, *inter alia*, the following terms:

Proposed date of grant of Award : 29 April 2019

Number of Shares comprised in the Award : Up to 30,943,600 Shares (representing approximately 2.40% of the total issued Shares as at the Latest Practicable Date and approximately 15.98% of the maximum number of Shares available under the Rex PSP and any other share schemes of the Company)

Vesting period of the proposed Award : The number of Shares to be issued pursuant to the proposed award will range from 0% to 100%, subject to certain pre-determined performance benchmarks and the satisfactory completion of time-based service condition(s) decided by the Committee. The proposed Award shall only be released in one or more tranches after the end of a one-year vesting period which may extend up to a maximum of two years from the date of grant of the proposed Award, as determined by the Committee.

The performance targets set for Mr Måns Lidgren are based on the average of the Company's closing market prices of Shares over a consecutive period of five Market Days in which transactions in the Shares were recorded, at any time within a two-year period from the date of grant of the proposed Award of Shares ("**Average Performance Market Price**").

If the Average Performance Market Price is S\$0.15 and above, 50% of the number of Shares in the Award shall be released after the vesting period. If the Average Performance Market Price is S\$0.30 and above, an additional 50% of the number of Shares in the Award shall be released. If the Average Performance Market Price is less than S\$0.15, none of the Shares in the Award shall be released unless otherwise determined by the Committee.

If the Average Performance Market Price has been met prior to the end of the vesting period, the Committee may waive any remaining vesting period and release the Award in tranches at its own discretion, in accordance with the rules of the Rex PSP. The Committee may also modify the release of Awards in tranches at its own discretion so as not to trigger a mandatory take-over offer.

3.3.3 Mr Måns Lidgren's remuneration package which includes his salary, benefits and bonus, was S\$1,912,541 for FY2018. The Directors are of the view that the proposed grant of Awards to Mr Måns Lidgren is consistent with the Company's objectives to motivate its Group Employees to achieve and maintain a high level of performance and contribution which are vital to the success of the Company. Rewarding Mr Måns Lidgren for his performance with the proposed grant of Awards will ensure that his interests remain aligned with that of the Company and will enhance his long-term commitment to the Group with a view to achieving long-term growth for the Group. The proposed grant of Awards to Mr Måns Lidgren would generally allow the Company greater flexibility with their cash and compensation structure and would conserve more of the Company's cash.

3.4 Rationale for the Proposed Grant of an Award under the Rex PSP to Dr Karl Lidgren

3.4.1 Dr Karl Lidgren is the Company's Executive Director and a Controlling Shareholder. The participation of Dr Karl Lidgren in the Rex PSP was previously approved by Shareholders at an extraordinary general meeting of the Company convened on 28 April 2017. Dr Karl Lidgren is responsible for providing strategic counsel and support to the Company so as to enable the Company to achieve its vision, as well as its short and long-term goals.

3.4.2 The Directors propose to grant an Award to Dr Karl Lidgren in accordance with the rules of the Rex PSP and on, *inter alia*, the following terms:

Proposed date of grant of Award : 29 April 2019

Number of Shares comprised in the Award : Up to 16,358,400 Shares (representing approximately up to 1.27% of the total issued Shares as at the Latest Practicable Date and approximately up to 8.45% of the maximum number of Shares available under the Rex PSP and any other share schemes of the Company)

Vesting period of the proposed Award : The number of Shares to be issued pursuant to the proposed award will range from 0% to 100%, subject to certain pre-determined performance benchmarks and the satisfactory completion of time-based service condition(s) decided by the Committee. The proposed Award shall only be released in one or more tranches after the end of a one-year vesting period which may extend up to a maximum of two years from the date of grant of the proposed Award, as determined by the Committee.

The performance targets set for Dr Karl Lidgren are based on the Average Performance Market Price, and if such price is S\$0.15 and above, 50% of the number of Shares in the Award shall be released after the vesting period. If the Average Performance Market Price is S\$0.30 and above, an additional 50% of the number of Shares in the Award shall be released. If the Average Performance Market Price is less than S\$0.15, none of the Shares in the Award shall be released unless otherwise determined by the Committee.

If the Average Performance Market Price has been met prior to the end of the vesting period, the Committee may waive any remaining vesting period and release the Award in tranches at its own discretion, in accordance with the rules of the Rex PSP. The Committee may also modify the release of Awards in tranches at its own discretion so as not to trigger a mandatory take-over offer.

- 3.4.3 Dr Karl Lidgren's remuneration for FY2018 was S\$626,187. Dr Karl Lidgren has been essential in the continued contributions to the Group, and the Directors are of the view that he will continue to play an important part in the growth and development of the Group. The proposed grant of the Award would align his interests with those of the Company and enhance his long-term commitment to the Group with a view of achieving long-term growth for the Group. Through the alignment of his interest with the Company's by the proposed grant of the Award to him, Dr Karl Lidgren's contributions can be acknowledged and the Group will have more flexibility in the use of the Company's cash and the structuring of his remuneration package.

4.2 Proposed Expansion of Current Business

The Group intends to expand its Current Business to include the following businesses described below (the "**Proposed Diversification**"), as and when the appropriate opportunities arise:

- (a) the production and supply of sustainable energy, including the distribution and/or operation of equipment and technology used for the production of sustainable energy. Types of sustainable energy sources available today include but are not limited to biomass, biofuels, hydropower, geothermal, wind, solar and innovative physics. Examples of deployment of sustainable energy technologies include the generation of electricity, heating and cooling of buildings, and to power transportation systems and machines;

- (b) the production and supply of innovative and sustainable solutions include but are not limited to the reprocessing of materials used in various industries, including but not limited to the packaging and automotive industries; and
- (c) development, ownership or acquisition of such related technology

(collectively, the “**New Businesses**”).

The Group may also in future, as part of the New Businesses, invest in or dispose of shares or interests in any entity that carries out the New Businesses.

The Company does not plan to restrict the New Businesses to any specific geographical market as each project and investment will be evaluated and assessed by the Board on its merits. The Group may also explore joint ventures and/or strategic alliances with third parties who have the relevant expertise and resources to carry out the New Businesses as and when the opportunity arises.

The decision on whether a project should be undertaken by the Group on its own or in collaboration with third parties will be made by the Board after taking into consideration various factors, such as the nature and scale of each project, amount of investment required, risks associated with such an investment, nature of expertise required, the period of time that is required to complete the project and conditions in the market, as well as taking into account the opportunities available at such time.

As at the Latest Practicable Date, the Company is exploring but has not committed to any specific business opportunity or investment under the New Businesses.

4.3 Rationale for the Proposed Diversification

The Group proposes to expand its Current Business to include the New Businesses for the following reasons:

(a) Enhancing Shareholder Value

The Proposed Diversification is part of the corporate strategy of the Group for long term growth to provide Shareholders with diversified returns. The Board believes that the Proposed Diversification will offer new business opportunities and provide the Group with additional and recurrent revenue streams and improve its prospects, so as to enhance Shareholder value for the Company.

Notwithstanding the above, the Group remains focused on enhancing operational efficiency to improve the profitability of the Current Business.

(b) The Proposed Diversification will enable the Group to participate in the fast growing sustainability development business in the energy and materials sectors

While the Group continues to pursue sustainable growth strategies to strengthen and grow its Current Business, the Group’s diversification into growth areas will facilitate its aim of achieving sustained performance in future. The Company is of the view that long-term outlook and prospects for the sustainability development business in the energy and materials sectors is positive, as global demand for energy and sustainable solutions for materials is expected to grow, on the back of increasing population and urbanisation around the world, and continued economic growth in many Asian countries. The undertaking of the New Businesses will allow the Group to capitalise on these fast-growing sectors.

(c) The Proposed Diversification will give the Group the flexibility to enter into transactions relating to the New Businesses

Once the Shareholders approve the Proposed Diversification, the Group may enter into transactions relating to the New Businesses without having to seek Shareholders' approval for the sole reason of such transactions having constituted a change of risk profile. This will eliminate the need for the Company to convene separate general meetings on each occasion to seek Shareholders' approval, allowing the Group greater flexibility to pursue business opportunities which may be time sensitive in nature. A further benefit would be to substantially reduce the costs associated with the convening of general meetings from time to time.

(d) The Proposed Diversification is complementary to the Group's Current Business

A key differentiator for the Group in its Current Business is its proprietary technology, the liquid hydrocarbon indicator Rex Virtual Drilling, which is used as an additional tool to de-risk its exploration assets and increase the success rate of finding oil. Investors are increasingly demanding oil and gas companies to take action on climate change and the global trend in the energy market is a general move from fossil fuel towards sustainable energy and sustainability practices. The Proposed Diversification will be complementary to the Group's technological expertise as well as its product and service offerings and an extension of the Group's business in the energy sector.

4.4 Managing the New Businesses

Even though the New Businesses are different from the Current Business, the Board recognises that the relevant experience and expertise required in relation to the New Businesses can be acquired and developed by the Group over time as it progresses in the New Businesses. The Board and senior management of the Group comprise individuals with varied qualifications and experience who will provide the strategic vision and policy on the New Businesses.

In making decisions, the Board and senior management of the Group will seek advice of reputable external consultants and experts where necessary and appropriate. The Group intends to engage in the New Businesses incrementally. It will monitor developments and progress in the New Businesses and take the necessary steps to identify suitable candidates both from within the Group as well as externally to manage the New Businesses to take it forward as and when required. In addition, the Group will evaluate the manpower and expertise required for the New Businesses and will, as and when required, hire suitably qualified personnel, external consultants, external industry experts and professionals.

The Group may foster partnerships with various third parties in the relevant industries to assist it in undertaking the New Businesses more effectively and efficiently as the Group seeks to build its expertise and capabilities in this field. Such partnerships may be done either on a case by case basis or on a term basis. Where necessary, work may be outsourced to reputable third parties who have expertise in the relevant area in relation to the projects concerned. In selecting its partners, the Group will take into account the specific expertise and competencies required for the project in question and the experience, historical track record and financial standing of the party concerned.

4.5 Funding for the New Businesses

As and when the Group identifies a potential opportunity in the New Businesses, the Group currently envisages that it will in future, finance these opportunities using internal sources of funds. While the Board is of the opinion that the aforesaid will be sufficient for its initial purposes and there is no imminent need or present intention to raise additional funds for the New Businesses, the Group may consider tapping on the capital markets (including but not limited to rights issues, share placements and/or issuance of debt instruments), take up external borrowings, or a combination of both, as and when necessary and deemed appropriate.

4.6 Requirements under the Catalist Rules

It is envisaged that the Proposed Diversification will change the existing risk profile of the Company as it is different from the Current Business. Accordingly, Shareholders' approval for the Proposed Diversification is being sought at the EGM.

Upon receipt of approval by Shareholders of the Proposed Diversification, any acquisition which is made in connection with, the New Businesses, may be deemed to be in the Group's ordinary course of business and therefore not fall under the definition of a "transaction" under Chapter 10 of the Catalist Rules. Accordingly, the Group may, in its ordinary course of business, enter into transactions relating to the New Businesses which will not change the risk profile of the Group, in an efficient and timely manner without the need to convene separate general meetings from time to time to seek Shareholders' approval as and when potential transactions relating to the New Businesses arise, even where they cross the threshold of a "major transaction", if the acquisition will result in an expansion of the Group's existing core business. As set out in Practice Note 10A of the Catalist Rules, the SGX-ST takes the view that it should not in normal circumstances require an issuer to seek shareholders' approval if the expansion is by way of an acquisition of a similar business, when other means to expand its business that are open to the issuer would not require shareholders' approval. This will reduce substantially the administrative time and expenses in convening such meetings, without compromising the corporate objectives and adversely affecting the business opportunities available to the Company.

Pursuant to Rule 1014 of the Catalist Rules, a major transaction is a transaction (as defined in Rule 1002(1) of the Catalist Rules) where any of the relative figures as computed on the bases set out in Rule 1006 of the Catalist Rules (a) exceeds 75% but is less than 100% (for an acquisition) or (b) exceeds 50% (for a disposal), and must be made conditional upon approval by shareholders in a general meeting. In addition, the Company is required to, amongst others, make an announcement containing the information set out in Rule 1010 of the Catalist Rules.

For the avoidance of doubt, notwithstanding the Proposed Diversification:

- (a) Rules 1010 and 1014 of the Catalist Rules would still apply to any transaction which falls within the definition as set out in Rule 1002(1) of the Catalist Rules;
- (b) where any acquisition of assets (whether or not the acquisition is deemed to be in the ordinary course of business of the Company) is one where any of the relative figures as computed on the bases set out in Rule 1006 of the Catalist Rules is 100% or more or which will result in the change of control of the Company, would be deemed to be a very substantial acquisition or reverse takeover and would be subject to Rule 1015 of the Catalist Rules and would be subject to approval of Shareholders;
- (c) Practice Note 10A of the Catalist Rules will apply and Shareholders' approval would be required for any transaction (which falls within the definition as set out in Rule 1002(1) of the Catalist Rules) which changes the risk profile of the Company; and
- (d) where any transaction constitutes an "interested person transaction" as defined under Chapter 9 of the Catalist Rules, Chapter 9 of the Catalist Rules will apply to such a transaction and the Company will comply with the provisions of Chapter 9 of the Catalist Rules. In particular, pursuant to Rule 905 of the Catalist Rules, where any interested person transaction is of a value equal to or more than 3% of the Group's latest audited net tangible asset, or when aggregated with other transactions entered into with the same interested person during the same financial year, is of a value equal to or more than 3% of the Group's latest audited net tangible asset, the Group must make an immediate announcement of the interested person transaction. Pursuant to Rule 906 of the Catalist Rules, where any interested person transaction is of a value equal to or more than 5% of the Group's latest audited net tangible asset, or when aggregated with other transactions entered into with the same interested person during the same financial year, is of a value equal to or more than 5% of the Group's latest audited net tangible assets, the Group must obtain Shareholders' approval of the interested person transaction.

Notwithstanding that Shareholders' approval of the Proposed Diversification has been obtained,

- (i) Rule 1015 of the Catalist Rules will apply to acquisitions of assets (including options to acquire assets) whether or not in the Company's ordinary course of business (which will include the New Businesses) and which results in any of the relative figures as computed on the bases set out in Rule 1006 of the Catalist Rules exceeding 100% or results in a change in control of the Company. Such acquisitions must therefore be, amongst others, made conditional upon approval by Shareholders at a general meeting; and
- (ii) Part III of Practice Note 10A of the Catalist Rules will apply to acquisitions or disposals of assets (including options to acquire or dispose assets) which will change the risk profile of the Company. Such transactions must therefore be, amongst others, made conditional upon approval by Shareholders at a general meeting.

Pursuant to Rule 1005 of the Catalist Rules, separate transactions completed within the last 12 months may also be aggregated and treated as if they were one transaction in determining whether a transaction falls into category (a), (b), (c) or (d) of Rule 1004 of the Catalist Rules.

The Company will be required to comply with any applicable and prevailing Catalist Rules as amended or modified from time to time.

4.7 Risk Factors

Shareholders should note that the Proposed Diversification may change the risk profile of the Group. Shareholders should carefully consider and evaluate each of the following considerations and all of the other information set out in this Circular in relation to the Proposed Diversification. Some of the following considerations relate principally to only certain and not all of the industries pertaining to the New Businesses. Other considerations relate principally to general economic and political considerations.

If any of the following considerations and uncertainties develops into actual events, the business, financial condition, results of operations or prospects of the Company's New Businesses could be materially and adversely affected. The risks discussed below also include forward-looking statements and actual results of the Group and of the Company may differ substantially from those discussed in these forward-looking statements.

Sub-headings are for convenience only and risk factors that appear under a particular sub-heading may also apply to one or more other sub-headings.

The following considerations are not exhaustive and not intended to be exhaustive and are not presented in any particular order of importance. There may be additional risks not presently known to the Company.

(a) The Group has no prior track record and operating experience in the New Businesses

The Group has no prior track record in the carrying out or implementation of the New Businesses. There is no assurance that the Group's foray into the New Businesses will be commercially successful and that the Group will be able to derive sufficient revenue to offset the capital and start-up costs as well as operating costs arising from the New Businesses. The New Businesses may require high capital commitment and may expose the Group to unforeseen liabilities or risks associated with its entry into new markets and new businesses.

The New Businesses involves business risks including the financial costs of setting up new operations, capital investments and maintaining working capital requirements. If the Group does not derive sufficient revenue from or does not manage the costs of the New Businesses effectively, the overall financial position and profitability of the Group may be adversely affected.

The Group will also be exposed to the risks associated with a different competitive landscape and a different operating environment. In particular, the Group may be affected by factors affecting the market in the regions where the Group ventures into, such as general economic conditions, changes in interest rates and relevant government policies and measures. The Group's future plans with regard to the New Businesses may not be profitable, may not achieve sales levels and profitability that justify the investments made and may take a long period of time before the Group could realise any return. The activities of the New Businesses may entail financial and operational risks, including diversion of the management's attention and difficulty in recruiting suitable personnel.

(b) The Group may face competition from existing competitors and new market entrants in the New Businesses

The New Businesses may be highly competitive, with strong competition from established industry participants who may have larger financial resources or a stronger track record. The Group may therefore not be able to provide comparable services at lower prices or respond more quickly to market trends than potential or existing competitors who may have larger financial resources and stronger track records. Further, new competitors may enter the industry resulting in increased competition or saturation. There is no assurance that the Group can compete successfully against its existing or potential competitors now or in the future. To compete effectively, the Group will have to offer more competitive pricing or differentiate itself by adopting more creative marketing strategies.

The demand for sustainable energy depends in part on the cost of generation from other sources of energy. Especially in light of current oil and gas prices, the terms and costs of supplying petroleum, coal, natural gas and other fossil fuels are key factors in determining the economic ease of using these energy sources rather than sustainable energy sources. A decline in the competitiveness of electricity from sustainable energy sources in terms of generation costs, technology progress in energy source exploitation, or the discovery of large, new deposits of oil, gas or coal, could weaken demand for electricity generated from sustainable energy sources.

In the event that the Group fails to compete successfully in the New Businesses, the Group's business, financial condition, results of operations and prospects may be adversely affected.

(c) The New Businesses may be adversely affected by technology obsolescence and change

The sustainable energy industry is characterised by rapid and significant changes in technology and its applications, which play an important role in determining the demand and market adoption of products and services. Existing systems and technologies are frequently improved and enhanced and new standards are continually introduced. There is no assurance that the Group will be able to keep up with the improvements, enhancements and new standards introduced by its competitors. The challenge for the Group is to keep abreast of technological changes and ensure the relevance of the technologies and businesses that the Group is engaged in. If the Group does not keep up with technological changes, for technical, legal, financial or other reasons, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.

(d) The New Businesses may require substantial capital expenditure and investment cost

The future plans and new initiatives pertaining to the New Businesses could be capital intensive and could also result in potentially dilutive issuances of equity securities, the incurrence of capital commitments, debts and contingent liabilities as well as increase operating expenses, all of which may materially and adversely affect the financial performance of the Group. The Group may face significant financial risks before it can realise any benefits from its investments in the New Businesses, if at all.

(e) The Group may be faced with limited availability of funds and is subject to financing risks

The Group requires financial resources to fund its working capital requirements and support future growth of the New Businesses. There can be no assurance that the Group will be able to generate sufficient funds internally from its own operations, or secure adequate external financing, either on a short-term or a long-term basis, or obtain such financing on terms which are favourable to the Group. Factors that could affect the Group's ability to procure financing include market disruption risks which may adversely affect the liquidity, interest rates and the availability of funding sources. In the event that the Group is unable to secure sufficient financial resources for the New Businesses, overall business, financial condition, results of operations and prospects may be adversely affected.

(f) The Group may be exposed to risks associated with acquisitions, joint ventures and/or strategic alliances

Depending on available opportunities, feasibility and market conditions, the Group's expansion into the New Businesses may involve acquisitions, joint ventures and/or strategic alliances with third parties in overseas markets that the Group may intend to focus on. There is no assurance that such acquisitions, joint ventures, strategic alliances and/or the joint management of such enterprises will be successful.

The acquisitions, participation in joint ventures, strategic alliances and/or other investment opportunities involve numerous risks, including the possible diversion of the management's attention and loss of capital or other investments deployed in such ventures, alliances, acquisitions and/or opportunities.

Furthermore, the Group may rely on its joint venture partners at the initial stage of its foray into the New Businesses and there is a risk that any of the joint venture partners may fail to perform by not possessing the adequate experience or skill set expected of them or experience financial or other difficulties which may affect their ability to carry out their contractual obligations, resulting in additional costs to the Group. In such events, the Group's business operations, financial condition, results of operations and prospects may be adversely affected.

(g) The Group may pursue business opportunities in businesses that are relatively new or do not have a long track record

The Group may decide to penetrate new market spaces by pursuing opportunities in incubator or start-up ventures that exploit new technologies. These businesses may not have an established track record and there is no guarantee that these technologies can be successfully monetised in the markets in which they operate. There are substantial risks to establishing and operating a new business, and as such there is no assurance that these businesses will be successful. In the event that these businesses fail or do not capture the desired market share or achieve the desired revenue streams, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.

(h) The Group may not have the ability or sufficient expertise to execute the New Businesses

The Group's ability to successfully diversify into the New Businesses is dependent upon its ability to adapt its existing knowledge and expertise, and to understand and navigate the New Businesses. There is no assurance that the existing employees hired by the Group may be able to implement and manage the New Businesses by acquiring the relevant skill and knowledge in a timely manner. Further, there is no assurance that the Group will be able to hire and subsequently retain employees with relevant experience and knowledge. Especially where the technology used in the relevant business is still in its developmental stage, personnel with the appropriate expertise and experience may be difficult to recruit or costly to retain. Should the Group fail to engage and keep such personnel as employees, there may be an adverse effect on the Group's profitability.

While the Group has planned the Proposed Diversification based on the Group's understanding of the current market outlook and general economic situation, there is no assurance that such plans will be commercially successful or that the actual outcome of the Proposed Diversification will match the Group's expectations. In such event, the Group's business, financial condition, results of operations and prospects may be materially and adversely affected.

(i) The Group is exposed to a range of economic risks relating to the New Businesses in the countries in which the Group may operate

The performance of the New Businesses depends largely on the economic situation and the performance of the respective business industries, and is dependent on the continued expansion of the economies of the countries in which the Group may operate. There is no assurance that the respective sectors in each of the countries in which the Group may operate will continue to grow. The markets in each of the countries in which the Group may operate may be adversely affected by political, economic, regulatory, social or diplomatic developments affecting the respective sectors generally. Changes in inflation, interest rates, taxation or other regulatory, economic, social or political factors affecting the countries in which the Group may operate, or any adverse developments in the supply, demand and prices of resources or raw materials may have an adverse effect on the Group's business. This may also materially and adversely affect the Group's business operations, financial condition, results of operations and prospects.

(j) The Group is subject to various government regulations in the New Businesses

The New Businesses may be exposed to the risks posed by current and potential future regulations and legislation that apply to the industries in which the Group operate and the industries its clients operate. While many countries have favoured and called for greater use of sustainable energy, it is by no means a guarantee that a change in the government of the day in any of these countries would not bring about or reverse legislation put in place that were conducive and favourable to such green alternatives. Changes in the regulatory environment in countries in which the Group operates may have consequences for the Group, such as limiting the Group's ability to do business in a jurisdiction because of a change in laws or an imposition of trade barriers.

The Group may be affected by revised or new legislation and guidelines by the relevant governments in response to market conditions. Such regulatory changes may impact the New Businesses and in particular, the Group's ability to deliver on projects and services.

(k) The New Businesses may be subject to the general risk of doing business overseas

The Group does not plan to restrict the New Businesses to any specific geographical market. As such, the Group is subject to the general risk of doing business overseas. These general risks include unexpected changes in regulatory requirements, difficulty in staffing and managing foreign operations, social and political instability, fluctuations in foreign currency exchange rates, potentially adverse tax consequences, legal uncertainty regarding legal liability or enforcement of legal rights, tariffs and other trade barriers, variable and unexpected changes in local law and barriers to the repatriation of capital or profits, any which could materially affect the overseas operations of the Group. These risks, if materialised, may affect the Group's business, financial condition, results of operations and prospects.

In addition, if the governments of countries in which the Group operates tighten or otherwise adversely change their laws and regulations relating to the repatriation of their local currencies, it may affect the ability of the Group's overseas operations to repatriate profits to the Group and, accordingly, the cash flow of the Group may be adversely affected.

(l) The Group is exposed to foreign exchange transaction risks

Foreign exchange may adversely affect the Group's financial position and operating results. The Group may conduct the New Businesses in various jurisdictions. The Group is therefore exposed to the effects of changes in foreign currency exchange rates. Unfavourable movements in these exchange rates may have an adverse effect on the Group's revenue and/or cost of operating.

(m) The Group may be subject to exposure to litigation regarding intellectual property infringement

Where relevant, the Group intends to take advantage of newly developed or cutting-edge technologies in the New Businesses. As such, the New Businesses may be subject to exposure to litigation regarding intellectual property infringement. Such infringement claims may be frivolous or numerous, depending on the jurisdiction in which the Group operates its technologies, and the cost and inconvenience of defending such claims may have an effect on the Group's overall business performance.

(n) The Group may be exposed to risk of loss and potential liabilities that may not be covered by insurance

While the Group will, where appropriate, obtain insurance policies to cover losses in respect of its assets and certain eventualities arising from the Group's business operations, the insurance obtained may not be sufficient to cover all potential losses, including losses arising from risks which are generally not insurable. These include losses arising from acts of God, earthquakes, war, civil disorder and acts of terrorism.

Substantial claims made under the Group's policies could cause premiums to increase, which in turn increases its costs of operations. Any future damage caused by or to the Group or its assets that are not covered by insurance, in excess of policy limits or are subject to substantial deductibles, or contested by the insurance companies may adversely affect the overall business, financial condition, results of operations and prospects of the Group.

(o) There is no assurance of any potential growth of the New Businesses

While the Group will actively seek opportunities in the New Businesses, there is no assurance that it will be able to identify such opportunities which suit its risk and returns profile.

(p) The Group is subject to risks inherent in investing in entities which it does not control

The Group may make investments in entities that will not be the Group's subsidiaries and over which the Group does not have majority control. There is no assurance that the Group will be able to influence the management, operation and performance of these entities through its voting rights, in a manner which would be favourable to the Group, or at all. If all or any of these entities were to perform poorly, the Group's overall business, financial condition, results of operations and prospects may be adversely affected.
