

MASIRAH OIL LTD - PRESS RELEASE

PRODUCTION UPDATE - SEPTEMBER 2024

Muscat, 10 October 2024: Masirah Oil Limited (“**MOL**”) today announced that gross production in September 2024 from the Yumna Field in offshore Block 50 Oman, amounted to an average of 2,813 stock tank barrels per day (stb/d) over the month’s 30-day production period.

Execution of plans to improve and increase the fluid (water and oil production) capacity of the flow line is now expected to be completed in mid-November 2024, subject to weather conditions.

MOL is the Operator and holds a 100 per cent interest in Block 50 Oman.
